SLOT D, E
OPT-E3

- 1 Shield
 - 2 VP
 - 3 RxD/TxD -P
 - 4 RxD/TxD -N
 - 5 DGND
- Jumper X13, termination resistor
- Bus termination ON
 - Bus termination OFF default
- Jumper X14, upper row
- GND connected to cable shield
 - GND not connected to cable shield default
- Jumper X14, lower row
- Cable shield is connected to PE through RC
 - Cable shield is connected directly to PE default
 - Cable shield is not connected default
